

## Hope Community - Learning Coordinator

Hope Community is a dynamic and respected community development organization that began in 1977 in a challenged and changing urban neighborhood in south Minneapolis. Every year, our Community Engagement work involves hundreds of diverse youth and adults in community-centered opportunities for learning and leadership. The COMMUNITY LEARNING COORDINATOR will play an important role in a multi-year project to expand and enhance Hope's opportunities for learning and leadership, primarily with adults. This project builds upon Hope's many years of successful community-connected programming that involves over 200 adults and includes regular classes in English, Math, and computers; a Distance Learning program; a program for people who want to start their own business; opportunities to develop skills in self-advocacy, leadership, and community dynamics; and a variety of opportunities to learn with and from other community members (such as a community garden). Many of these opportunities engage community volunteers who make a commitment to participate on a regular basis.
